INDEX

This index covers articles published in BUSINESS AND HEALTH *from November 1986 through December 1987. It is a continuation of the cumulative index published in the October 1986 issue. In the subject index, categories appear in block capitals followed by descriptions of pertinent articles. In the author index, names appear as main heads, followed by descriptions of their articles as subheads. Page references take the form of month/year:page (e.g. 9/87:56 is an article that appeared on page 56 of the September 1987* BUSINESS AND HEALTH*). Interviews are identified by (I), News Roundup articles by (NR) and Data Bank articles by (DB).*
